

Used the World over

No other article of human food has ever received such emphatic commendation for purity, usefulness and wholesomeness from the most eminent authorities.

ROYAL BAKING POWDER

Royal has always received the highest award when exhibited or tested in competition

tie or nothing till I tell you that Great Britain, after 2000 years of wealth piling, has only \$55,000,000,000, France \$50,000,000,000, Germany \$45,000,000,000, Russia \$35,000,000,000, Austria \$20,000,000,000, Italy \$18,000,000,000, Spain \$12,000,000,000. Then we realize what our resources mean, for it is upon these that our wealth is based. According to the census of 1900 we produce 22 percent of the world's wheat, 30 percent of its gold, 32 percent of its coal, 33 percent of its silver, 34 percent of its manufactures, 25 percent of the iron, 38 percent of the cattle, 35 percent of the steel, 50 percent of the petroleum, 54 percent of the copper, 75 percent of the cotton and 84 percent of the corn. Last year our farms, orchards and plantations yielded \$5,000,000,000 worth. The south's cotton crop was worth a billion, or twice as much as was taken from all the gold mines on earth.

Jews and Education.

"Follow the Jews. If you see the Jews going to a town, go there; if you see them leaving one, leave there. If you were to walk along Broadway, New York, you would think you were in Palestine. The greatest bankers are also Jews."

"The greatest orator in New York is a Jewish rabbi named Wise; in Chicago we have rabbi Hirsch and so from one end of the republic to the other they are at the head of the law of the Jews. That, although the father and the mother may go hungry, the son will receive an education. They attend the schools and are industrious; they make the best of their opportunities."

Schools and Politics.

If I had my way the night schools would be the best and all schools would be taken out of politics, at least until politics were considerably reformed. There is a wave of moral reform sweeping this country from one end to the other, and it means a great deal. The American people are not blind; they will be wiser and they will grasp the opportunities that present themselves."

A Real Patriot.

Here he made reference to the Jews and said they would not go to war with us, and added:

"But some say they have formed an alliance with England. Let them. I will answer as did Lincoln, a man whom the south has gradually come to recognize as its greatest benefactor. When they told him a coalition was being formed to place Maximilian in Mexico and combine the European countries against us, he said: 'Let them do it. New York and Baltimore, but they cannot pass the Alleghenies.' Lincoln said that 60 years ago, and if the whole world could not have done it then, how can Japan do it now? When that war is over, there will be no Japanese in the Philippines on the earth, but we will still be here."

He spoke of the nation's resources: "When the mines are empty and there is no more coal, gold, silver, copper or iron to take from the bowels of the earth, we will have the waters, the rivers to yield what we get now from coal—heat, light and power; we will have the soil," he said.

Prof. Monaghan pictured the soil and our waste of it, saying a billion tons of it are turned into the gulf and seas, or enough to make 10 islands each a mile long, a mile wide and 65 feet high. In other words, he said, we waste in a year what it took God 10,000 years to create. In a second of time the glaciers ground the granite of our hills to dust and made our soil. We waste it."

A reception of an informal character was later tendered Prof. Monaghan at the Knights of Columbus home on Myrtle avenue, and he left this morning for Las Cruces, where he will lecture tonight, and whence he will go to Albuquerque to deliver another lecture.

NEW BUILDINGS AT VALENTINE

Improvements Made in Residence Property—High School Has Piano.

Valentine, Texas, April 6.—Contractor C. C. Jones is moving into his newly erected bungalow, near the high school.

ECZEMA ON HANDS FOR TEN YEARS

Were Raw All Over and the Humor was Spreading to Body and Limbs—Professional Treatment did No Good—Daughter had Eczema, Too.

CUTICURA A SUCCESS IN BOTH THESE CASES

"I had eczema on my hands for ten years. At first it would break out only in winter. Then it finally came to stay. I had three good doctors to do all they could but none of them did any good. I then used one box of Cuticura Ointment and three bottles of Cuticura Resolvent and was completely cured. My hands were raw all over, inside and out, and the eczema was spreading all over my body and limbs. Before I had used one bottle of Cuticura Ointment, my sores were nearly healed over, and by the time I had used the third bottle, I was entirely well. I had a good appetite and was healthier than I ever was. To any one who has any skin or blood disease I would honestly advise them to fool with nothing else, but to get Cuticura and get well. My hands, cured by the use of Cuticura, have never given me the least bit of trouble up to now. I cannot recommend Cuticura highly enough, it has done me and my family so much good. My daughter's hands this summer became perfectly raw with eczema. She could get nothing that would do them any good until she tried Cuticura. She used two bottles of Cuticura Resolvent and one box of Cuticura Ointment and two weeks they were entirely cured. I have used Cuticura for other members of my family and it always proved successful. I recommend it to any one with eczema. After once using it you will never use anything else. Mrs. M. E. Falin, Speers Ferry, Va., Oct. 19, 1909."

KEEPING THE HAIR

To prevent dry, thin and falling hair; remove dandruff; allay itching and irritation; and promote the growth and beauty of the hair, frequent shampoos with Cuticura Soap and occasional dressings with Cuticura are usually effective when all other methods fail. Special and full directions accompany each package of Cuticura.

Cuticura Soap (25c.), Ointment (50c.), Resolvent (50c.), and Cuticura Cream (25c.), are sold throughout the world. Potter Drug & Chem. Corp., Sole Proprietors, Columbus, Ohio.

HOW HE CURED HIS SKIN DISEASE

About twenty years ago I began to break out with Eczema on my head, legs and arms, and commenced treatment with the local doctors, but did not get much relief. I continued to treat the disease under the direction of different physicians for two years, and at the end of that time they said the disease was chronic. I then quit them and tried various ointments, salves, lotions, etc., for another two years, but soon I was as bad off as before, so I finally decided to let medicine alone, and for twelve or thirteen years I suffered intensely from the Eczema. During the time I lost about half of my hair. At last I began S. S. S., doubtful of a cure, because the disease had run on so long, but I soon discovered that your medicine was doing me good, and continued to take it. After taking S. S. S. for awhile I was completely cured of the Eczema, not having a single spot left on my body, which before was almost completely covered with the eruption. I waited until the Spring to see if it would return, but have seen no signs of it, and am satisfied the cure is permanent. It has been several years now and I do not believe I will ever have any return of the trouble.

1017 Hackberry St., Ottumwa, Iowa. R. C. NORFOLK.

What S. S. S. did for Mr. Norfolk it can do for every one who is afflicted with a Skin Disease. He is just one of the many thousands who have cured themselves by the simple process of purifying the blood and removing the cause from the circulation. We want you to be cured if you have any skin trouble, and shall endeavor in this short talk to tell you just why S. S. S. will accomplish the desired result.

The skin is composed of two distinct layers. One is known as the epidermis or outer skin, which has no fibres, and serves principally as a covering to the body. The other is known as the derma or true skin, and is composed of elastic fibres, fat tissue, glands, lymphatics, nerves, etc. The thousands of tiny veins and arteries with which this lower section is interlaced, supplies the cuticle with healthful properties from the circulation to keep the skin smooth and healthy. We can therefore readily see how necessary it is for the blood to be pure if the skin remain free from disease, and also why humors and acids in the circulation always find their way to the surface and cause skin affections.

All skin troubles are due to a humor or acid in the blood. Instead of supplying rich, nutritive properties to the cuticle, the circulation constantly deposits an acid impurity into the sensitive fibres and tissues. This causes inflammation of the under layer of the skin which splits or breaks the thin outer tissue and causes an ulceration of the glands, producing a discharge upon the surface, in the form of Eczema, Tetter, Salt Rheum, etc. There is likewise a dry form of skin disease such as Acne, Psoriasis, etc. In these varieties the humor in the blood diseases the pores, hair follicles, etc., causing them to swell and protrude to the outer surface. Pimples, rashes, eruptions and like troubles are all due to impure blood, and only a blood purifier can cure them. Salves, washes, lotions, etc., will perhaps afford some temporary relief from the itching, and assist in keeping the skin clean, but such treatment can have no effect on the humors in the blood, and therefore never do any permanent good.

S. S. S. cures Skin Diseases of every kind by neutralizing the acids and removing the humors from the blood. S. S. S. cools the acid-heated circulation, builds it up to its normal strength and thickness, multiplies its rich, nutritious corpuscles, and adds to its purity and nourishing qualities in every way. Then the skin, instead of being irritated and inflamed by fiery humors and acids, is nourished, soothed and softened by a plentiful supply of rich, pure blood. S. S. S. is the greatest of all blood purifiers and therein lies its ability to cure skin diseases. It cures Eczema, Acne, Tetter, Salt Rheum, pimples, boils, rashes and all eruptions of the cuticle. These troubles cannot remain when the cause has been removed, and S. S. S. will certainly remove the cause by purifying the blood. Book on Skin Diseases free to all who write.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

building. This building is unique in its features being covered and sided entirely with shingles.

The R. D. McAnelly warehouse building is under construction. The foundation is completed and all adobe are made for the entire building. C. L. James has the contract for both buildings.

Mrs. M. E. Waldron has improved her new residence by placing around it a fancy galvanized yard fence. Valentine is giving her support in the great Herald contest to Mrs. Lee Prude, of Van Horn. Mrs. Prude is well known here and has a host of friends.

Through the efforts of the Valentine Improvement club the auditorium of the high school building now has a piano. Mrs. S. C. Bell, of Wilcox, Ariz., who has been trying the hot springs near Candelaria for the benefit of her rheumatism, was in Valentine en route to the hot wells near Sierra Blanca. Mrs. Bell stated she had been afflicted for many years, had tried different wells in Arizona, Oklahoma and parts of Texas, but none proved of more benefit to her than the wells near Candelaria, but owing to the fact that accommodations could not be obtained she was forced to try the Sierra Blanca wells.

Mr. and Mrs. A. S. Stewart are visiting at the home of Mr. and Mrs. W. W. Gravenburg. Mrs. Dan Smith and children were spending a few days at the country home of Mrs. A. S. Stewart when Mrs. Smith's baby was taken seriously ill. They brought the baby to town where medical aid could be secured.

Mrs. H. G. Medley an dechildren and Miss Minnie Jones have returned from El Paso. H. G. Medley has returned from Candelaria where he has been buying cattle.

AMUSEMENTS.

FILM PART AT WIGWAM.

Over in Paris there is a little stock company made up of the leading actors of the local theater. They stage and produce plays for Paris Freres, who are considered the best enacted of all moving picture subjects and are known to the world as "Films d'Art." One of these, "The Arrest of the Duchess de Berry," will be shown at the Wigwam tonight in addition to two other pleasing pictures. One of these is called "Paid in Full."

CRYSTAL'S SPECIAL TICKET.

The Crystal theater, "the house cozy," is becoming more popular all the time with its late and distinct pictures, its good music and clever effects. A complimentary ticket has been issued for the women. It is good for six admissions and sells for 50 cents. A woman can use it six times or can bring women friends on it. Tonight's bill includes "The Girl and the Ranger," a story of the Texas-Mexico border.

THE WEATHER.

Forecast.

For El Paso and vicinity—Tonight and Thursday fair.

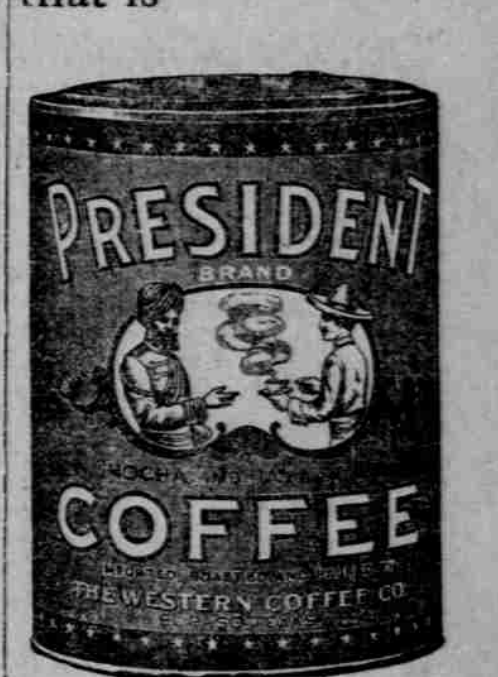

For west Texas—Tonight and Thursday fair; warmer tonight, except in extreme western portion.

For New Mexico—Tonight partly cloudy; warmer southeast portion. Thursday partly cloudy.

River at El Paso—Height of surface this morning above fixed zero mark, 15 feet.

When you BUY COFFEE you don't expect to display it in a glass jar for exhibition purposes. You buy it to create "The Cup that Cheers," and if it "hits the spot" you come back for more.

It is the coffee inside the package that counts with you and suits your taste. You don't get "the flavor" from the six-months old package, or from "the many years in business." You are looking for the "right article" and your money's worth. You only get it when you buy a COFFEE that is UPTODATE, HYGIENIC, SATISFYING AND INVIGORATING. Roasted fresh all the time, and "MADE IN EL PASO"—that is—

President Coffee

It is THE COFFEE

When you buy a package you are buying COFFEE, not fossilized ideas and a "long past due" article.

Consider this. Have a little confidence and order a pound from the GOOD GROCER.

"AMERICAN CATHOLICS LOVE COUNTRY MORE THAN THEY LOVE THEIR POPE"

Speaker Before Knights of Columbus Says There Will Never Be a War With Japan—Tells of Country's Resources.

Prof. James Charles Monaghan, of the university of Notre Dame, Ind., and national lecturer of the Knights of Columbus, delivered an address at the Crawford theater last night to a house that was most comfortably filled.

The speaker is a man of small physique, dark complexion and wears a short black beard, tinged with gray, while he is becoming slightly bald. He declared that there would be no war between the United States and Japan, for the simple reason that Japan raises no cattle and does not raise sufficient food to warrant her seeking war, while we can raise more in the Ohio and Mississippi valleys than all the other countries of the world combined.

Speaking of the loyalty of Catholics,

he said: "If the pope of Rome were to make peace with the quiritus and head an army which would come to our shores to war with us, I would consider it my duty to crush him and his army before they reached the shores, and I voice the sentiments of every other true American when I say that."

Jos. M. Nealon introduced the speaker. "Some time ago, Pius X., one of the noblest and sweetest of men, said we should be building churches and filling them, schools and filling them," said the speaker. "The Knights of Columbus have chosen the second, and therefore they have started educating the people."

Only One Flag.

"People from far off parts of the world are painting horribly pessimistic pictures of the conditions in this country. These people, many of them, come in at our gates from far off places. Many of them are ignorant of our language and laws, and are unable to size up either our sociological or political condition or positions. Pessimists, they paint us as parasites, as people badly governed, as lost to all legitimate right to respect because of our failure to be revolutionists; whereas, by instinct and

training we are evolutionists. These people pay for and build conventicles, have catechisms and catechetical classes in which they teach their followers, little children among others, to hate the flag."

"They say that the red, white and blue flag is a rag on the end of a stick. Big as this land is, 3,000,000 square miles from sea to sea, from lakes to gulf, it is not large enough for any flag, except the red, white and blue flag."

Let the Irishman, the Frenchman and the German celebrate his fete day. I believe in the love of fatherland, for the man who does not love his fatherland will not love his adopted country."

Educate Women.

"I believe in educating the women, because where you educate the women, the boys are bound to be educated."

"And now, girls, if your brothers tell you that there is room at the top, tell them there is not, for there is no top, but there is plenty of room all the way up, to climb."

As to Opportunity.

"Our educational system looks like a pyramid on its apex; it is a system upside down. We educate the clergyman, lawyer, doctor, nurse, engineer and teacher; pay \$155 per capita to keep them at school, \$57 for the boys and girls in the high schools and \$27 for the little ones in the grades. The whole system is coordinate and regulated as if every boy and girl was to go through the university. As a matter of fact, only one in every 120 gets to the university, one in 30 through the high school, while less than 25 percent graduate from the grades."

"This is all wrong. The lawyers, doctors, clergymen and those of like calling should, could and would pay for their own education. The city and state should care for those in the mines, on the farms, in the forests and factories, who cannot care for themselves. They, too, should get a training that will and would fit them for their life's work, for that after all is what an education should be, a fitting for life and for death."

"Will it pay? A boy or man who works at ordinary labor and advances from \$10 a week at 22 to \$10.10 when 25 and never gets beyond that pay. The man who learns a trade in the old way advances from \$13.50 to \$15.80."

"The boy who is trained in a trade school, such as we now need, advances from \$17 to \$25, and the boy who is technically trained goes up from \$12 to \$42, and becomes an industrial leader or captain."

"Our first great opportunity is in the schools. We want to do as Germany and Japan have done—educate head, hand and heart—add the three H's and the three A's—adapt, adapt and adapt—to the three R's."

Political Economy.

"The essence of political economy or economics revolves around the words, wants, work and wealth. The world is one of wants; these lead to work; this to the satisfying the wants and the piling up of the surplus as wealth. In 1850 we had \$7,000,000,000, today we have \$130,000,000,000. That means lit-

Keep The Stomach Right

Don't Feed it with rubbish. Eat food that gives you good health.

DR. PRICE'S ALGRAIN FOOD

is a combination of cereals, WHEAT, OATS, RICE and BARLEY, so blended that they form a food unlike any other. You will get from the food sufficient nutrition to keep the body healthful. Give it to the children with a frail constitution and note its building-up properties. It not only tastes good, but will be of great benefit. Ask your Grocer.

Summer Fares

It is not too soon to plan your Summer Vacation. Where, and via what route will you go?

The E. P. & S. W. System will have in effect some very attractive summer tourist and convention fares East, West and North. Long limits, with liberal stopovers.

Advise us where and when you want to go and we will take pleasure in giving you full information.

The best trains via the best route leave El Paso morning, noon and night.
